

# Overview from A to Z

## Part number prefix explanation

<b>BF</b>	Felt fuel filter element	<b>MWK</b>	Fuel filter for motor cycles
<b>BFU</b>	Metal-free felt fuel filter element	<b>P</b>	Fuel filter element
<b>C</b>	Air filter element	<b>PL</b>	Spin-on fuel filter for PreLine®-system
<b>CF</b>	Secondary air filter element	<b>PU</b>	Metal-free fuel filter element
<b>CP</b>	CompacPlus® air filter element	<b>PF</b>	By-pass oil filter insert
<b>CS</b>	Air filter element (filter material-synthetic foam)	<b>PFU</b>	Metal-free by-pass oil filter insert
<b>CU</b>	Air filter element for the vehicle's interior	<b>SP</b>	Service pack
<b>CU-KIT</b>	Cabin filter retrofit KIT	<b>TB</b>	Air drying box for air braking systems
<b>CUK</b>	Air filter element for the vehicle's interior with activated charcoal	<b>U</b>	Urea filter
<b>Di</b>	Gasket	<b>W</b>	Spin-on lubricating oil filter
<b>H</b>	Oil filter element	<b>WA</b>	Cooling liquid filter
<b>H-KIT</b>	Gearbox oil filter including gasket	<b>WD</b>	Spin-on hydraulic oil filter
<b>HU</b>	Metal-free oil filter element	<b>WDK</b>	Spin-on fuel filter for higher pressures
<b>HD</b>	Oil filter element for high pressure filters	<b>WH</b>	Spin-on hydraulic oil filter
<b>LB</b>	Air oil separator box	<b>WK</b>	Spin-on fuel filter
<b>LC</b>	Element for crankcase ventilation	<b>WP</b>	Spin-on oil filters for secondary flow or combined primary/secondary flow
<b>LD</b>	Element for compressed air processing	<b>ZR</b>	Rotor for oil centrifuge
<b>LS</b>	Wrench-removal tool	<b>-2</b>	Set, comprising several identical or different filter types, e.g. C 3698-2
<b>LSK</b>	Wrench removal tool case	<b>...n/t/x/y/z</b>	Gasket enclosed
<b>MH</b>	Oil filter element for motorcycle		
<b>MW</b>	Spin-on oil filter for motorcycles
